Air Heating

Air Top 2000 ST / EVO3900 / EVO 5500 *The latest technology in diesel heating*

Webasto air heating systems are the ultimate choice when it comes to heating your leisure vehicle's interiors efficiently and economically.

The light weight and compact air heaters are easy and quick to install and can be used even whilst driving ensuring that you and your passengers arrive at your destination in a pre-warmed vehicle.

They quickly heat the interior up to the temperature you require, quietly ensuring that you enjoy constant, cosy warmth on board, where ever you chose to rest.

The Air Top range of heaters are cost efficient as they have low power and fuel consumption and operate independently to heat up the interior without having to have the engine running.

Features & Benefits:

- High comfort due to the very quiet operation and step-less power control
- Easy Installation in virtually all vehicles due to compact dimensions
- No engine idling
- Can be used whilst driving
- User-friendly operation
- Powerful with short heat up times
- Dehumidifies interior when in fresh air mode
- Proven technology—top quality and reliability
- Low fuel and power consumption
- Fuel supplied from vehicle's own tank
- Optional fuel tank available for caravans
- In-Built Diagnostic capability as standard on both controls
- 2 year Australia wide warranty

Air Top 2000 ST

The smallest air heater unit, with ceramic technology and optimum economy for higher heating efficiency—infinately variable temperature control as standard.

Air Top EVO 3900 / Air Top EVO 5500

Very powerful, compact and quiet. Ideal for extreme conditions and to fulfill the highest demands. Option of both the standard or multifunction temperature controls.

Standard Control

Simply turn the hand control dial to start the heater and warm up to set your desired temperature.
Available for all models.

AirTop EVO Multifunction Control

Additional functions on the EVO control include: economical heating, boost heating, ventilation mode and high altitude mode.
Available only for the EVO 3900 and EVO 5500 heaters.

Technical specifications:

Unit	Voltage (V)	Fuel Type	Heat Output (kW) Partial Load—Full Load	Fuel Consumption (L/Hr) Partial Load—Full Load	Power Consumption (W) Partial Load—Full Load	Dimensions (LxWxH mm) Weight (Kg)
Air Top 2000 ST	12 / 24	Diesel*	0.9 — 2.0	0.12—0.24	14—29	311 x 120 x 121 2.6
