

Compact Cooler 5 / Compact Cooler 8 Compact roof-mounted air conditioning systems for truck cabs, cabins and bus driver compartments

The CC5/8 roof mounted air-conditioning systems are ideally suited for trucks and buses. Designed to the highest standards of product excellence, the evaporator, condenser and fans fitted in the roof-top unit withstand the most demanding road conditions.

The powerful compressor is available in six different configurations, permitting the flexibility required to ensure comfortable climatic conditions in a diverse number of applications.

The aerodynamic shape of the roof-top air conditioning unit reduces air resistance whilst driving. With its compact design it is also suitable for smaller trucks and buses.

Product benefits:

- Powerful cooling capacity
- Modern aerodynamic design with compact dimensions
- High air flow
- Copper tube coils
- Strong, one piece aluminium frame
- Strong impact resistant cover
- Grille protection for condenser
- High quality fan motors
- 2-year warranty

Product features: Compact Cooler 5

- Roof-mounted air conditioning system, optional electronic thermostat; colour of compact unit: white
colour of air distribution panel: black
- Wide range of compressors and installation accessories, kits with 2 x 6 m or 2 x 11 m refrigerant hoses

Product features: Compact Cooler 8

- Roof-mounted air conditioning system, optional electrically operated fresh air vent, optional electronic thermostat, colour of compact unit: white
- Air circulation via air distribution panel or air duct system; colour: grey
- Wide range of compressors and installation accessories
- Comprehensive assembly kits

Technical specifications:

Unit	Cooling power (kW)	Evaporator fan (m ³ /h)	Dimensions L x W x H (mm)	Weight (kg)	Nominal voltage (V)	Refrigerant (CFC-free)	Heating power optional (kW)
CC5	5	630	750 x 760 x 165	26.5	12 or 24	R134a	-
CC8	8.5	1300	1,025 x 970 x 197	40	12 or 24	R134a	7.5
